

SIDEWINDER

Manual Textile Press

FEATURES

- The world's best entry-level manual press at an exceptional price
- Available in 4-station/4-color, 4-station/ 6-color, and 6-station/6-color models
- Integrates seamlessly with M&R's Tri-Loc® and Double Tri-Loc® Registration System and any M&R automatic textile press

M&R's Sidewinder is the world's best entry-level manual press, and it's available at an exceptionally affordable price. Built with M&R's rugged construction and innovative design, Sidewinder sets a new standard for entry-level manual presses. Sidewinder includes numerous proven design features, including multiple-bearing upper and lower carousel plates, precise micro-registration system, machined center shaft, and three-point pallet leveling system. Sidewinder comes in 4-station/4-color, 4-station/ 6-color, and 6-station/6-color models.

M&R's System Integration design allows Sidewinder to integrate seamlessly with M&R's Tri-Loc and Double Tri-Loc Registration System and any M&R automatic textile press to create a highly affordable registration/sampling/production system. Standard

41 x 56 cm (16" x 22") solid aluminum rubber-covered pallets are compatible with all other M&R manual presses. The maximum recommended frame size—64 x 91 cm (25" x 36")—supports the majority of textile automatic screen sizes. Optional side clamps (with or without air locks), Triple-Play Pallets™ and M&R's Accu-Stroke™ Squeegee Guide maximize flexibility, aid setup, and help even novice printers ensure exceptional print quality and consistency.

All equipment from The M&R Companies is built with M&R's unsurpassed attention to detail and commitment to quality, durability, innovation, and design excellence, and is backed by M&R's unparalleled 24-hour access to service, support, and premium parts. It's no wonder M&R is the first name in screen printing equipment.

- Precise three-point pallet leveling system
- Solid-aluminum, low-profile, rubber-coated pallets
- Standard sizes are interchangeable with M&R automatic presses
- Tool-free quick release pallet locks

Registration

- Compatible with numerous registration systems, including M&R's Tri-Loc® & Double Tri-Loc® and Newman Pin-Lock®
- Micro-registration with zero set point guides
- Multi-axis registration with dual off-contact adjustment
- V-Guide locator system

Screen Clamps & Holders

- Accommodate most frame types and manage screen sizes up to 64 cm (25") wide
- Rear screen holders accommodate a wide variety of screen sizes

Spring Tension System

- Accommodates a wide variety of screen types, sizes, and weights

Warranty, Service and Support

- 24-hour hotline is staffed 365 days a year
- Access to M&R's Training Center
- One-year limited warranty

OPTIONS

Accu-Stroke™ Squeegee Holder

- Attaches easily to all Sidewinders and Chameleons
- Comfortable contour grip
- Guide rail keeps squeegee centered
- Squeegee locks at user-set angles for precise repeatability on every print

Jacket Hold-Down Pallet

- Allows the printing of lined jackets, reversible/double layer mesh-type jerseys, and other multi-layer garments

Pallets

- M&R offers a wide range of sizes and styles

Screen Clamps & Holders

- Heavy-duty side screen clamps are fully adjustable, simplify roller frame use, and accommodate a wide range of screen sizes, (recommended for screens 76 cm (30") or more in length)
- Pneumatic clamps hold frames tight and allow rapid screen loading
- Side screen clamps are required for the use of Tri-Loc® and Double Tri-Loc® Rapid Registration Systems and M&R's Triple-Play Pallet

RELATED PRODUCTS

Accu-Stroke

- Accu-Stroke is designed to ensure consistent squeegee angle and pressure throughout the print stroke on manual presses.

Acoma Flash

- With a powerful infrared heat panel, solid-state dwell controller, and temperature control dial, Acoma is M&R's most sophisticated manual flash cure system.

AS-200

- Amscomatic stackers accept a wide variety of products, neatly stacking them in user-set counts up to 30 cm (12") high
