

DS-2000™

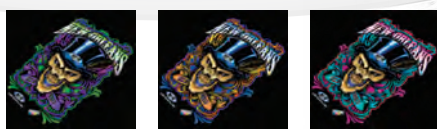

Digital Printhead for Hybrid Printing on Textiles

Screen Printed Underbase

Digital Printed Colors

Variable Data Using Same Underbase

DigitalSqueegee®

The DS-2000 Digital Squeegee combines high-resolution digital printing with the speed and cost savings of screen printing to offer you the ideal hybrid printing solution.

Complicated artwork can be set up and printed quickly with a minimum of screens and without costly separations or custom ink mixes. The Digital Squeegee prints a full-color CMYK image on top of an inexpensive screen printed underbase that works on a variety of fabric types like cotton, poly, and tri-blends.

At 200 prints per hour the DS-2000 bridges the gap between standard DTG imaging and traditional screen printing.

FEATURES

- Full color CMYK prints on screen printed underbase at 200 shirts per hour!
- Compatible with M&R's VictoryOne automatic press
- Maximum image area of 55 x 77 cm (21.7" x 27.6")
- Fast set-up with minimal screens and no pre-treatment
- Custom digital prints with special effects on cotton and polyester performance fabrics
