

# L-15H™

## Automatic Label Applicator

### FEATURES

- Applies labels automatically during the folding process to increase efficiency
- Product sensor ensures accurate label placement
- Allows label placement anywhere on the front of the garment

Amscomatic's high-speed label applicator is designed to automatically apply labels to garments as they pass through an automatic folding machine. Positioned on the folder, the L-15H simplifies setup, label loading, and label positioning. With a folder-activated product sensor, variable timer, and adjustable mount, the L-15H allows label placement virtually anywhere on the front of the folded garment. The L-15H can be easily integrated with new and older Amscomatic automatic folders, as well as with some other brands of folding machines.

The L-15H has a 7.62 cm (3") label core capacity, and is designed to speed label loading and changeover. It mounts directly to the folder, and features variable side-to-side label location. An optional floor stand adds flexibility by allowing the L-15H to be positioned over a conveyor. Amscomatic also supplies printers for printing labels prior to application. Like all Amscomatic equipment, the L-15H is backed by a one-year limited warranty. The L-15H is engineered for dependable performance and low maintenance in demanding, high-production environments, and can be easily integrated with other Amscomatic equipment into automatic folding/bagging/sealing systems.

All equipment from The M&R Companies is built with M&R's unsurpassed attention to detail and commitment to quality, durability, innovation, and design excellence, and is backed by M&R's unparalleled 24-hour access to service, support, and premium parts. It's no wonder M&R is the first name in screen printing equipment.

### SPECIFICATIONS

	L-15H
Overall Size (H x W x D)	49.5 x 58.4 x 62.9 cm (19.5" x 23" x 24.75")
Electrical Requirements <sup>1</sup>	110 V, 1 ph, 7 A, 50/60 Hz, 0.77 kW
Shipping Weight	91 kg (200 lb)

<sup>1</sup> If incoming voltage differs from the voltage(s) listed in this brochure, calculate amperage accordingly. Other electrical configurations are available. Contact The M&R Companies for details.

# L-15HPA™

## Automatic Print/Apply Labeling System

### FEATURES

- Prints and applies labels automatically during the folding process to increase efficiency
- Product sensor ensures accurate label placement
- Allows label placement anywhere on the front of the garment

Amscomatic's L-15HPA print and apply labeler automatically prints blank label stock with any combination of graphics, bar codes, pricing, or other data, and then applies the labels virtually anywhere on the front of garments as they pass through an automatic folding machine. Positioned on the folder, the L-15HPA simplifies setup, label loading, and label positioning. With a folder-activated product sensor, variable timer, and adjustable mount, the user-friendly L-15HPA system offers excellent versatility. The L-15HPA can be easily installed on new and older Amscomatic automatic folders, as well as on certain other brands of folding machines (Call for a custom quote).

The L-15HPA works with thermal-transfer print engines from manufacturers such as Sato, Zebra, Datamax and Avery-Dennison, allowing seamless integration into most any production environment. The print size is infinitely variable in lengths up to 38 cm (15") and widths up to 15 cm (6"). BarTender labeling software from Seagull Scientific is included. This easy-to-use and versatile program allows the user to create a wide variety of label types, and it can pull data for the labels from almost anywhere. Existing labeling software may also be compatible (check with your software's author for the proper printer driver).

The L-15HPA labeler has a 7.62 cm (3") label core capacity, is designed to speed label loading and changeover, and mounts directly to the folder. An optional floor stand adds flexibility by allowing the system to be positioned over a conveyor for applying labels to folded or bagged garments. Like all Amscomatic equipment, the L-15HPA is backed by a one-year limited warranty. It is engineered for dependable performance and low maintenance in demanding, high-production environments, and can be easily integrated with other Amscomatic equipment into automatic folding/bagging/sealing systems.

### SPECIFICATIONS

	L-15HPA
Electrical Requirements <sup>1</sup>	110 V, 1 ph, 10A, 50/60 Hz, 1.1 kW
Maximum Print Size (L x W) <sup>2</sup>	38 cm (15") x 15 cm (6")
Shipping Weight	137 kg (300 lb)

<sup>1</sup> If incoming voltage differs from the voltage(s) listed in this brochure, calculate amperage accordingly. Other electrical configurations are available. Contact The M&R Companies for details

<sup>2</sup> Additional cost may apply to configure the L-15HPA to handle the maximum listed label-size capacity
