M&R’s Stryker sets the standard for oval format screen printing presses. Its oval design takes up less floor space than comparable carousel automatic screen printing presses, making more use of the available production area. Available in three print format sizes and expandable from 10 to 52 stations with selectable printhead locations, the Stryker can be tailored to almost any production requirement, floor layout or shop size.

A high-quality, smooth-operating servo-drive indexer provides fast, accurate single or double indexing, making Stryker ideal for cut-piece and all-over-print garments. The 80110 model can print up to 132 x 110 cm (52" x 43.5") in alternating printheads!

The AC-driven printheads deliver exceptional speed and control, while tool-free squeegee/floodbar angle adjustments, calibrated four-point off-contact and quick stroke length changes allow operators to optimize setup efficiency and maximize productivity.

Innovative standard features like M&R’s exclusive Squeegee Dam™ and Ink Dip™ systems are designed to keep thinner water-based and discharge inks correctly distributed in the screens for optimum printing and ink longevity. Combined with the optional fogger system, Stryker is the ultimate press for today’s printing needs and inks, further strengthening its reputation as the go-to press for many of the top printers around the world.

**Certification**
- CE Certified: Built to specifications established by the European Committee for Standardization® (CE)
- UL Listed: Built to specifications established by Underwriters Laboratories® (UL)
- M&R’s world class engineering, premium components, and attention to detail is what makes the Stryker one of the most popular automatic presses in the industry.

**Options**
- All-Over-Print capabilities
- Foot pedal control
- Adjustable delivery system feeds a highly atomized “fog” where needed to keep High Solids Acrylic (HSA) and water based inks from skimming over or drying in exposed mesh areas
- TOOL HOLDER

**Dimensions**

**STANDARD**
- Dimensions: 121 cm (48”)
- Maximum Pallet Size: 79 cm (31.5”)
- Maximum Image Area: 114 cm (45”)

**MAXIMUM WIDTH**
- Dimensions: 162 cm (63”)
- Maximum Pallet Size: 122 cm (48”)
- Maximum Image Area: 132 cm (67”)

**STRIKER 70110**
- Dimensions: 142 cm (56”)
- Maximum Pallet Size: 110 cm (43.5”)
- Maximum Image Area: 132 cm (67”)

**STRIKER 80110**
- Dimensions: 162 cm (63”)
- Maximum Pallet Size: 110 cm (43.5”)
- Maximum Image Area: 132 cm (67”)

The Stryker’s design is ideally suited for All-Over-Printing (AOP) of finished garments with optional AOP pallets and pneumatic sleeve supports. When not in use, the AOP support system quickly folds down and out of the way.
1 If incoming voltage differs from the voltage(s) listed in this brochure, calculate amperage accordingly. Other electrical configurations are available: Contact M&R Sales and Service, Inc. for details.
